Clearance Certificate

To whom it may concern,

We herewith confirm that the products delivered by our company (Lacquers, Stains) are free of hazardous materials such as formaldehyde, PCB, PCP, lindane, pesticides, insecticides and heavy metals.

Our products correspond to the strict requirements of the EN 71 Part 3 (Safety Regulations for Toys); Stains must be coated with at least one protective sealer layer). The ordinance to change the Utility items ordinance from July 15,1994 (Prohibiting cancer causing Azo-dyes in consumer goods) is in compliance.

According to the newest available scientific and technical information, our products contain no carcinogenic potential and during processing adhere to the stipulated air quality control limits i.e. TRGS 900 no reproduction-risks or no changes in the genetic make-up can be expected.

Our products are manufactured according to European Quality Standards, and when prepared appropriate (correctly) and after faultless thorough drying/curing they are accepted as industry hygienic.

Please follow the Safety Data Sheets and Working Instructions.

With best regards,

FRIEDRICH KLUMPP GmbH
